The simple ideas are usually the best. Slimline racks on the door can store belts, ties or scarfs, while an internal mirror lets you do a final check.

Front Frame

Front frame construction is ideal for difficult shapes and sloping ceilings, with wall to wall and floor to ceiling storage. Hanging rails can run continuously across the full width of the wardrobe, or within their own compartments along with drawers and shelves. The existing wall decoration will be visible inside the wardrobe.

Full Carcass

If you prefer an enclosed wardrobe interior, with a woodgrain finish all round, full carcass is for you. Each wardrobe comes as standard with a floor, roof and side panels enabling each storage area to be fully sectioned off. Shelves are adjustable to give greater flexibility.

Solid nickel shelf supports make moving your adjustable shelving easy.

Sliding Door aluminium stanchion

The internal fixtures of our Panorama Collection not only give flexible storage solutions for wardrobes but also provide perfect fittings for walk in wardrobes and dressing rooms. Choose from a range of shelves, chests, hanging rails and shoe rails to provide optimal storage for all your clothes and accessories. The dream of a walk-in closet can be realised with our aluminium stanchion storage system. The lack of panelling creates an open feel and uninterrupted use of space. The softened edges of the extruded aluminium rails and shelf supports, ensures that your clothes remain snag free. Shelves and chests are available in Novanta Oak, complimenting the aluminium perfectly.

Interior finishing touches

Our range of interior storage solutions provides dedicated spaces for even the most awkward shaped items, with a selection of racks and frames that is both functional and stylish. If you like to see everything in its place when you open your wardrobe door, this range of accessories will suit you.
