Individually designed and intelligently fitted

Individually designed and intelligently fitted: from unit height to worktop depth and from monitor position to storage reach, every item is designed with your comfort and well being in mind. Your new workspace will take into consideration all factors, from file storage and stationery levels to IT equipment and printers, each office is unique.

Each element of your home office will be specified to the highest high standard. Filing drawers have been designed to a load capacity of 50kg; catering for all your storage and filing requirements, as well as all doors and drawers being soft close as standard. Take a look at our home office designs today and find your perfect design.

Ergonomically designed

From unit height to worktop depth and from monitor position to storage reach, every item is designed with your comfort and well-being in mind. Our attitude is simple. Why should you compromise just because your office is at home?

Intelligently planned

Your new workspace should take into consideration all factors. From file storage and stationary levels to IT equipment and printers, each office should be unique to both you and your work.

Build quality

Each element of your home office will be specified to a very high standard. In particular, the filing drawers have been designed to a load capacity of 50kg; catering for all your storage and filing requirements. As you would expect, all doors and drawers are soft closing as standard.

Milton

Working from home allows you to perform that fine balancing act between business and family life. You want to create a working environment that suits the rest of the property and a space other family members may also want to use. Its not just about a desk and shelves its a workspace that suits your profession and has been designed with you, your house and family in mind.

Milton office is available in five painted finishes. The soft satin feel and simple shaker style door offer a look that is timeless. The 35mm thick Dark Pine coloured work surface is durable and a standard feature of the range. Milton is as much at home in the corner of a lounge as it is under the stairs or in a specific home office.

Moda

Introducing the latest addition to our Home office collection – Moda. Designed in conjunction with our Moda bedroom range, so it blends seamlessly throughout the whole of your home.

Personalize your own office space by 'mixing and matching' colours. Your starting point are the base carcass colours Dark Pine, Light Pine and Mid Walnut. There are then 11 possible fascia options for the fronts. The options are huge and the results can be striking

Moda office incorporates all the standard office storage solutions such as file drawers, pen tray & printer shelves, but also includes a functional peninsular desk or freestanding desk if you prefer.

This range is available in the following finishes:

Designer

Sleek, clean and modern design details epitomise the fresh European styling of the Designer range of fitted home office furniture. The beautiful beech finish gives the range a light and airy feel that works to enhance today's uncluttered, contemporary homes. In White, Designer has a fresh almost clinical appeal with a vibrant and youthful style, which is in complete contrast to Designer Walnut. With its masculine, rich tones and optional aluminium finishing touches, Designer Walnut is a striking and distinguished addition to any home.
